

— THE PROBLEM

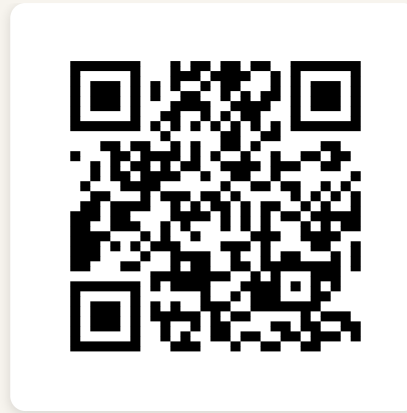

Students use AI every day, without clear rules.

- Students are unsure what AI use each assessment allows.
- Misuse becomes an integrity case instead of a lesson.
- Policies sit in documents that nobody reads.

With Oxonia AI Hub

Oxonia AI Hub gives every student and member of staff short lessons on using AI well, answers about the university's AI rules with the clause, and a simple declaration for each assessment. It is part of Oxonia Policy.

- AI-enabled. A person approves every official record.

Oxonia Learn · For students

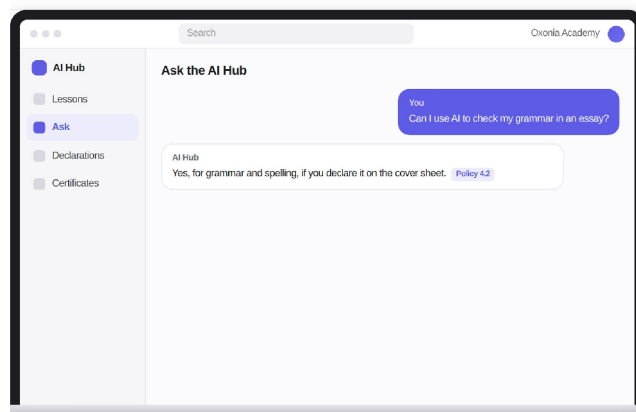

OXONIA

AI Hub

AI literacy and the rules, for every student.

oxonia.ai

— HOW IT WORKS

Ask about the rules, with the clause

1 Learn

Short lessons and quizzes, with certificates; lessons also work offline.

2 Ask about the rules

Answers from the university's approved policy, citing the clause.

3 Know the level

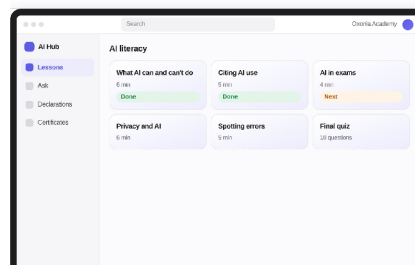

Each assessment shows the AI use allowed, from 'No AI' to 'Full use, disclosed'.

4 Declare

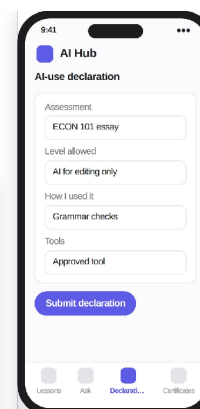

Students say how they used AI on each assessment.

5 Request or report

Staff request a new tool or report an incident from the same app.

AI literacy lessons

A declaration in seconds

— ALSO INCLUDED

A space to write

Students write assessed work in a composition space that saves as they go.

Fair process

Students can respond to an integrity case and appeal.

— WHO USES IT

Students

Lessons, the rules and declarations.

Lecturers

Declarations for each assessment.

All staff

Training, tool requests and incident reports.

Quality and compliance office

Training completion and certificates.

— WHAT IT MEANS FOR YOUR UNIVERSITY

Saves time

- Questions about the rules answered with the clause, without an email chain.
- Declarations collected for every assessment.

— QUESTIONS UNIVERSITIES ASK

Does it work on phones and weak connections?

Yes. The AI Hub installs on a phone, and lessons work offline.

Does it replace our AI policy?

No. It answers from the policy your university has approved, and cites the clause.

What if a student is accused of misuse?

The integrity case appears in the student's Hub, where they can respond and appeal.

Who owns our data, and is it safe?

Your records belong to your university. Each university's data is kept separate and every access is written to your audit log. We don't use your content to train AI models, and our AI providers work under business terms that don't allow training on it. Oxonia is built for Nigeria's Data Protection Act and the UK GDPR, and you can export everything.

— WORKS WITH THE REST OF OXONIA

One Oxonia Academy ID signs everyone in to every product your university gives them, and a launcher shows each person the products they may open.

Oxonia Policy

AI in the university, governed.

Oxonia Tutor

An Oxford-style tutorial for every student.

Oxonia Scribe

Every lecture, captured and turned into study packs.

Screens show illustrative data.
