

— THE PROBLEM

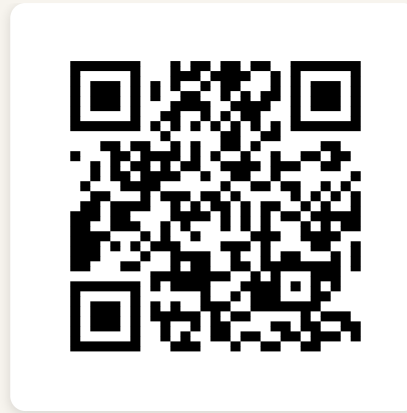

Leaders see the university through other people's spreadsheets.

- Figures arrive late, from different offices, in different formats.
- Approvals wait in many inboxes and paper files.
- Strategic targets and risks are reviewed once a year, if at all.

With Oxonia Compass

Oxonia Compass brings live figures from every Oxonia product onto one screen, each with its source, puts every approval in one inbox and sends you a brief every Monday.

- AI-enabled. A person approves every official record.

— HOW IT WORKS

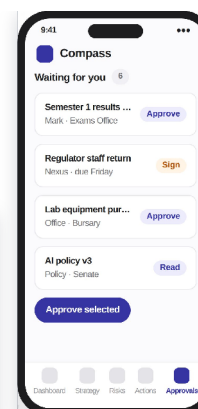

The dashboard: every figure with its source

- 1 **One dashboard**
Students, fees, results, research and actions, each figure counted from records and shown with its source.
- 2 **Strategy and risk**
Goals with targets and owners in red, amber or green; the risk register as a heat map.
- 3 **Overdue actions by faculty**
See where decisions are stuck, and who owns them.
- 4 **One approvals inbox**
Office requests, payments to confirm, scholarship decisions, AI tool requests and items from Mark and Nexus, with a phone alert when one lands.
- 5 **A brief every Monday**
What changed and what needs a decision, with a source for every line.

Risk register as a heat map

Approvals waiting, on the phone

— WHO USES IT

Vice-Chancellor

The whole university on one screen and in one inbox.

Deputy Vice-Chancellors

Strategic goals, risks and overdue actions in their portfolio.

Registrar

Approvals and actions waiting across faculties.

Bursar

Fee collection and payments to confirm.

— WHAT IT MEANS FOR YOUR UNIVERSITY

Saves time

- No more chasing offices for figures: they are counted from records, with sources.
- The Monday brief is prepared for you.

Helps generate income

- Fee collection and research figures are visible as they happen, so you can act sooner.

— QUESTIONS UNIVERSITIES ASK

Where do the numbers come from?

Every figure is counted from records in the Oxonia products and carries its source, so you can open the record behind it.

Can I use it on my phone?

Yes. Compass installs on a phone, and you get an alert when an approval lands.

Does Compass approve things for me?

No. Each item links to the product where the right person approves it.

Who owns our data, and is it safe?

Your records belong to your university. Each university's data is kept separate and every access is written to your audit log. We don't use your content to train AI models, and our AI providers work under business terms that don't allow training on it. Oxonia is built for Nigeria's Data Protection Act and the UK GDPR, and you can export everything.

How do we get started, and is there training?

People are invited once with their Oxonia Academy ID. Your records come in by import, staff and students get short lessons with certificates, even on WhatsApp, and our team plans the go-live with you.

— WORKS WITH THE REST OF OXONIA

One Oxonia Academy ID signs everyone in to every product your university gives them, and a launcher shows each person the products they may open.

Oxonia Senate

Council, Senate and committees, from agenda to signed minutes.

Oxonia Nexus

Records, accreditation and regulator returns.

Oxonia Advance

Fees, scholarships, alumni and fundraising.

Oxonia Mark

Exam scripts marked, every mark explained.

Screens show illustrative data.
