

— THE PROBLEM

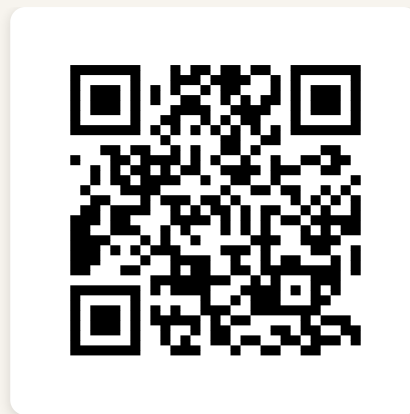

Every return and every accreditation visit starts from scratch.

- Staff data is retyped for every return.
- Accreditation evidence is gathered in a rush before each panel.
- Returns go in with errors and without a clear sign-off.

With Oxonia Nexus

Oxonia Nexus keeps verified staff records and accreditation evidence ready, fills in the regulator's annual return from your records and sends it for the Vice-Chancellor's sign-off.

- AI-enabled. A person approves every official record.

Oxonia Lead · For leaders

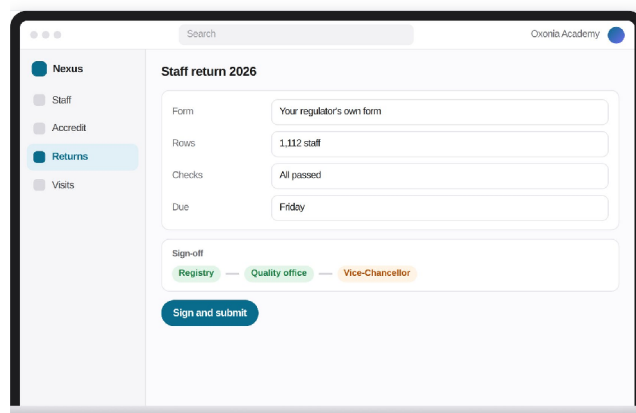

OXONIA

Nexus

Records, accreditation and regulator returns.

oxonia.ai

— HOW IT WORKS

The annual return, ready for sign-off

1 Verified staff records

Appointments and qualifications verified once and kept with history; staff lists imported from CSV and publications from ORCID.

2 Accreditation readiness

Readiness for every programme, from evidence already in the system.

3 Self-study builder

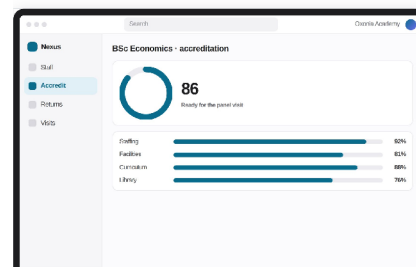

The self-study drafted from your own records.

4 The annual return

Filled in from your records, checked for errors, signed off by the Vice-Chancellor, then locked.

5 Panel visits

Panels, schedules, scores and visit reports in one place.

Readiness for a programme

— WHO USES IT

Registry and faculty officers

Staff records, verified once.

Vice-Chancellor

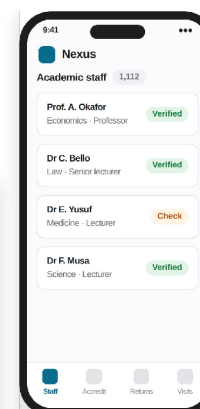

Signs off the return before it is locked.

Quality and compliance office

Readiness, self-studies and panel visits.

Deans and heads of department

Readiness for each programme.

Verified staff records

— WHAT IT MEANS FOR YOUR UNIVERSITY

⌚ Saves time

- Returns fill themselves from your records and are checked for errors.
- Self-studies and visit packs are drafted from evidence already held.

💰 Saves money

- Records verified once and reused for every return, instead of retyped.

— QUESTIONS UNIVERSITIES ASK

Is the NUC form built in?

Returns and the accreditation instrument are set up to your regulator's own form. Until it is loaded, a sample layout is used for demonstration.

Who signs the return?

The Vice-Chancellor or a designate signs it off, and the submitted return is locked.

Can the regulator see our data?

Only where oversight is switched on, and every look is written to your own audit log.

Can we import our staff list?

Yes. Staff records are uploaded from CSV, validated and then committed.

Who owns our data, and is it safe?

Your records belong to your university. Each university's data is kept separate and every access is written to your audit log. We don't use your content to train AI models, and our AI providers work under business terms that don't allow training on it. Oxonia is built for Nigeria's Data Protection Act and the UK GDPR, and you can export everything.

— WORKS WITH THE REST OF OXONIA

One Oxonia Academy ID signs everyone in to every product your university gives them, and a launcher shows each person the products they may open.

Oxonia Compass

The leadership cockpit for the whole university.

Oxonia Mark

Exam scripts marked, every mark explained.

Oxonia Research

The research office in one place.

Screens show illustrative data.
