

— THE PROBLEM

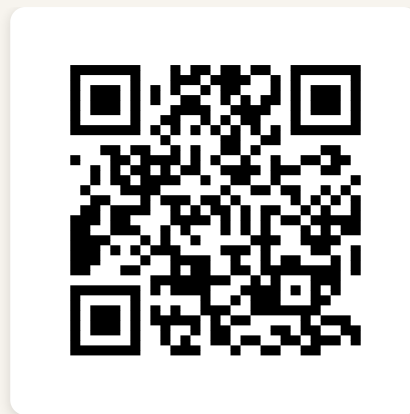

A dozen systems that never talk to each other.

- Board papers, fees, lectures, exams, research and returns to the regulator still live on paper and in email chains.
- The same records are retyped for every office and every return.
- Leaders see the university late, through other people's spreadsheets.

With Oxonia

Oxonia brings governance, administration, teaching, assessment, student finance and research onto one AI-enabled platform, with one sign-in for everyone.

- AI-enabled. A person approves every official record.

Oxonia is part of Oxford City Academy for Education and Development, Oxford, England, established 2004, company no. 05216710.

Join our leadership programmes at Oxford City Academy.

Designed and built by HBZ Group Ltd, UK

oxonia.ai

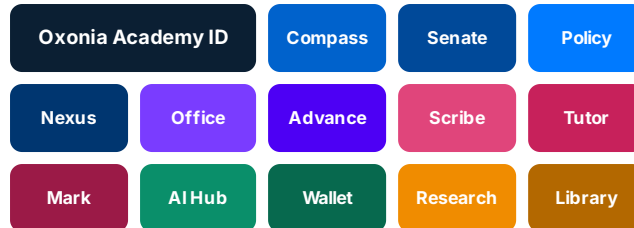

Oxonia: the whole university

One Academy ID. Every part of the university, on one platform.

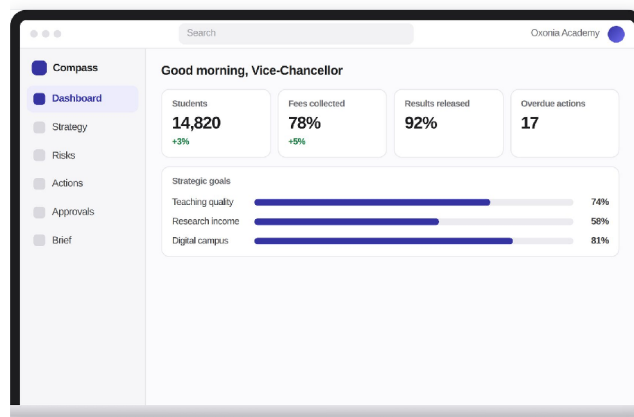

oxonia.ai

— HOW IT WORKS

One Academy ID, every product

- 1 Invite people once**
Your university gives each person access to the products they need, with one Oxonia Academy ID.
- 2 A launcher for everyone**
Each person sees only the products they may open, on a laptop or a phone.
- 3 Bring your records with you**
Admission lists, portal exports, payment reports and LMS users are imported, with the columns mapped for you.
- 4 People approve every official record**
AI drafts are labelled as drafts until a person with the right role adopts them.

Compass: the whole university on one screen

— FIVE SUITES, THIRTEEN PRODUCTS

Oxonia Lead

For leaders

Compass · The leadership cockpit for the whole university.

Senate · Council, Senate and committees, from agenda to signed minutes.

Policy · AI in the university, governed.

Nexus · Records, accreditation and regulator returns.

Oxonia Operate

For administrators

Office · Day-to-day administration, without paper.

Advance · Fees, scholarships, alumni and fundraising.

Oxonia Teach

For lecturers

Scribe · Every lecture, captured and turned into study packs.

Tutor · An Oxford-style tutorial for every student.

Mark · Exam scripts marked, every mark explained.

Oxonia Learn

For students

AI Hub · AI literacy and the rules, for every student.

Wallet · Fees and support on the student's phone.

Oxonia Discover

For researchers

Research · The research office in one place.

Library · Your university's research, answering questions.

— WHAT IT MEANS FOR YOUR UNIVERSITY

Saves time

- Board packs, minutes, returns and reminders are prepared for you.
- Only the hard exam scripts reach your examiners.

Saves money

- One sign-in and one platform across the university.
- Digital board packs instead of printing, and records imported, not retyped.

Helps generate income

- Fees collected sooner, with payment plans, weekly reminders and card payments.
- Students kept by matching them to support before they leave.
- Alumni campaigns that fund scholarships, and funding calls matched to your researchers.

— QUESTIONS UNIVERSITIES ASK

Who owns our data, and is it safe?

Your records belong to your university. Each university's data is kept separate and every access is written to your audit log. We don't use your content to train AI models, and our AI providers work under business terms that don't allow training on it. Oxonia is built for Nigeria's Data Protection Act and the UK GDPR, and you can export everything.

Will it work on weak internet and on phones?

Yes. Wallet, Compass, the Boardroom app and the AI Hub install on a phone. Board packs open offline, and Mark keeps scanning exam booklets with no signal, then uploads when it returns.

Can we import from our current systems?

Yes. There are built-in import profiles for JAMB CAPS admission lists, student portal exports, Remita, Paystack, Moodle, Google and Microsoft, and you can save your own. Columns are mapped for you.

Does it support NUC and other regulators?

Nexus prepares accreditation evidence and the annual return from your own records, set up to your regulator's own form, for the Vice-Chancellor's sign-off. Mark produces the results pack for Senate. Where oversight is switched on, every look by the regulator is written to your own audit log.

How do we get started, and is there training?

People are invited once with their Oxonia Academy ID. Your records come in by import, staff and students get short lessons with certificates, even on WhatsApp, and our team plans the go-live with you.

Screens show illustrative data.
