

— THE PROBLEM

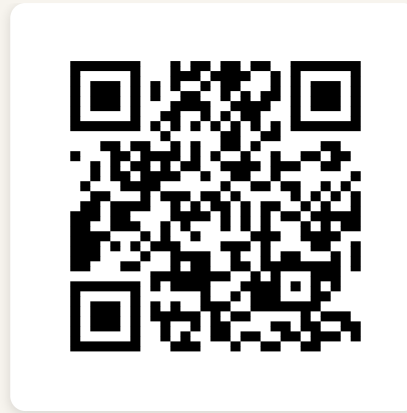

Lectures vanish the moment they end.

- Students who miss a word, a lecture or the language of instruction fall behind.
- Lecture notes take hours to write, and few students read them.
- Lecturers cannot see which topics the class missed until the exam.

With Oxonia Scribe

Oxonia Scribe captures every lecture and turns it into live captions, a summary, a quiz, flashcards and a mind map, so every student can follow and catch up in their own language.

- AI-enabled. A person approves every official record.

Oxonia Teach · For lecturers

OXONIA Scribe

Every lecture, captured and turned into study packs.

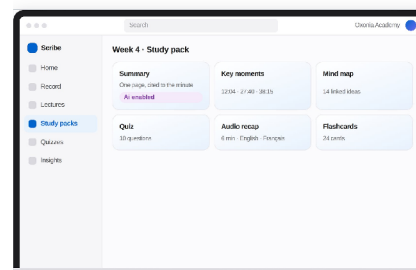

oxonia.ai

— HOW IT WORKS

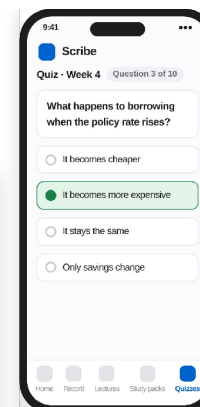

Live captions in the student's language

- 1 Press record**
Start a live room in the hall or online, or upload a recording, including Zoom cloud recordings.
- 2 Students join by QR code**
Live captions on their phones, switched to Hausa, Yoruba, Igbo, Malay, Turkish, Arabic, French and more.
- 3 A study pack for every lecture**
A summary with key moments, a quiz, flashcards, a mind map and an audio recap.
- 4 Students ask the lecture**
Answers come from what was said in the room, with the time to replay.
- 5 Lecturers see the class**
Who opened the lecture, quiz results per question and the hardest flashcards.

The study pack for a lecture

Quiz on a student's phone

— ALSO INCLUDED

Polls

Run on the same phones during the lecture.

Spaced repetition

Flashcards a student forgets come back until they stick.

Any recorder

Recordings arrive by upload, a drop address or WhatsApp.

Your LMS

Moodle, Canvas and Blackboard through LTI.

— WHO USES IT

Lecturers

Records once; sees where the class struggles.

Students

Captions in their language, study packs and quizzes.

ICT and LMS administrators

Connect Moodle, Canvas or Blackboard once, through LTI.

— WHAT IT MEANS FOR YOUR UNIVERSITY

Saves time

- No more hand-written lecture notes: the summary, quiz and flashcards come from the recording.
- One recording serves every student, in every caption language.

Saves money

- Study materials delivered to students' own phones, with nothing to print.

— QUESTIONS UNIVERSITIES ASK

Will it work if the hall's internet is weak?

Students follow on their own phones. If the connection drops, record on any recorder or phone and send the file later by upload, drop address or WhatsApp; large files are sent in small pieces.

Which languages are supported?

Captions switch to many languages, including Hausa, Yoruba, Igbo, Malay, Turkish, Arabic and French.

Does it work with our LMS?

Yes. Moodle, Canvas and Blackboard connect through LTI.

Who owns our data, and is it safe?

Your records belong to your university. Each university's data is kept separate and every access is written to your audit log. We don't use your content to train AI models, and our AI providers work under business terms that don't allow training on it. Oxonia is built for Nigeria's Data Protection Act and the UK GDPR, and you can export everything.

How do we get started, and is there training?

People are invited once with their Oxonia Academy ID. Your records come in by import, staff and students get short lessons with certificates, even on WhatsApp, and our team plans the go-live with you.

— WORKS WITH THE REST OF OXONIA

One Oxonia Academy ID signs everyone in to every product your university gives them, and a launcher shows each person the products they may open.

Oxonia Tutor

An Oxford-style tutorial for every student.

Oxonia Mark

Exam scripts marked, every mark explained.

Oxonia Library

Your university's research, answering questions.

Screens show illustrative data.
