

— THE PROBLEM

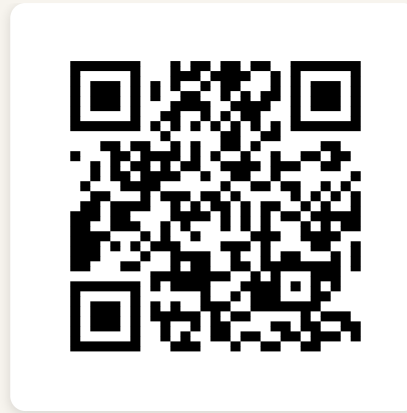

Queues at the bursary, receipts on paper.

- Students and families travel to pay, or to collect a receipt.
- Families do not know what is due next.
- Students who need help do not know where to apply.

With Oxonia Wallet

Oxonia Wallet puts the balance, the payment plan, payments, receipts and scholarship applications on the student's phone. It is part of Oxonia Advance.

- AI-enabled. A person approves every official record.

— QUESTIONS UNIVERSITIES ASK

Do students need an app store?

No. Wallet installs on a phone straight from the browser.

Is paying by card safe?

Card payments go through your university's own payment account, and the receipt is issued at once.

Can guardians and sponsors stay informed?

Yes. They are linked to the student's account and receive the weekly reminders.

Who owns our data, and is it safe?

Your records belong to your university. Each university's data is kept separate and every access is written to your audit log. We don't use your content to train AI models, and our AI providers work under business terms that don't allow training on it. Oxonia is built for Nigeria's Data Protection Act and the UK GDPR, and you can export everything.

— WORKS WITH THE REST OF OXONIA

One Oxonia Academy ID signs everyone in to every product your university gives them, and a launcher shows each person the products they may open.
